Professional Summary: Software Engineer with 5+ years of experience in full-stack development, CKAN-based open data platforms, Angular, TypeScript, Python, Django, and cloud deployments. Experienced in building public-sector data portals, warehouse automation systems, authentication workflows, and scalable web applications.

EDUCATION

Lahore University of Management Sciences

BS Computer Science

Sept 2017- June 2022

Relevant Courses: Software Engineering, Internet of Things, Advanced Programming, Machine Learning, Deep Learning, Speech Processing

WORK EXPERIENCE

Echo Technology

Senior Software Engineer | Open Data Specialist - Amman, **Jordan**

1 Year & 11 Months: May 2024 - Mar 2026

- **Tech Stack:** CKAN, Python, Flask, Redis/RQ, SolR, PostgreSQL, Bootstrap, jQuery
- Collaborated with Jordan's **Ministry of Digital Economy & Entrepreneurship** to deliver a national Open Government Data Portal, enabling **150+ ministries and government entities** to publish and manage **4,000+ datasets** for citizens, researchers, and public-sector users.
- Extended CKAN's core Action and Authorization functions to support **6 distinct user roles**, enabling controlled, role-based data publishing and stronger governance across a multi-organization government platform.
- Developed **10+ custom CKAN extensions** to address operational and user-facing needs, including data requests, issue reporting, and data-success-story workflows, improving the platform's ability to capture stakeholder feedback and engagement.
- Designed and implemented **secure authentication integrations** using SANAD for Jordanian citizens and LDAP for government employees, providing separate, role-appropriate access paths for public and internal users.
- Built and enhanced CKAN-based **publishing workflows** and portal capabilities to help government entities manage complex data-publication requirements while maintaining usability, security, and accountability.

Rolustech

Software Engineer - Lahore, Pakistan

2 Years: July 2022 - July 2024

- **Tech Stack:** Angular, RxJs, Typescript, JavaScript, Material UI, Bootstrap, ExpressJS, NestJS, HTML, SCSS
- Enhanced Angular Form-Renderer library to generate **100+** user-interaction-forms with different requirements using meta data, and Ayle UI image cropper to fulfill close to **50** image cropping requirements while incorporating 2D canvas formulation
- Integrated the Dexie indexedDB to cache the warehouse inventory on client-side resulting in reduction of scan validation time by **70%**
- Synced warehouse inventory states in real-time for **100+** warehouse workers using IOT mqtt pub-sub model.
- Conducted developer **sessions** for a **15-member team** on clean code, modularity, API contracts, and software design practices.

Open Data Pakistan

Software Engineer - Lahore, Pakistan

1 Year & 2 Months: June 2021 - July 2022

- **Tech Stack:** Python, CKAN, Flask, Jinja2, AWS EC2, Bootstrap, PostgreSQL, Load Balancers
- Enhanced Python CKAN portal, addressed change requests, and conducted R&D for tens of new features.
- Scaled infrastructure for **1500+** monthly users, **300+** datasets, and hosted **3** national-level hackathons.
- Deployed the portal on AWS EC2 for accessibility to 1500 users and scalability to 300 datasets.
- Upgraded the system to the latest version and migrated the DB to the new instance with almost 0% downtime

PROJECTS

National Open Government Data Portal — Jordan

2024–2026

CKAN, Python, Flask, PostgreSQL, Solr, Redis/RQ, SANAD SSO, LDAP, Bootstrap, jQuery, nginx, uwsgi

- Developed and enhanced a national CKAN-based open-data portal serving **3,700+ datasets** from **150+ government entities** across **15 sectors**.
- Built custom CKAN extensions and implemented secure SANAD SSO, LDAP authentication, and role-based publishing workflows for government users.

Panavid — Logistics & Warehouse Automation

2022–2024

Angular, RxJs, Typescript, MQTT, REST APIs, GraphQL, JavaScript, Material UI, Dynamic Forms

- Built and enhanced logistics, warehouse, and event-management workflows for a U.S.-based enterprise platform operating across 8+ warehouses.
- Improved warehouse scanning and dynamic-form workflows through reusable frontend components, real-time synchronization, and client-side optimization, reducing validation time by approximately 70%.

Open Data Pakistan

2021–2022

CKAN, Python, Flask, Jinja, Solr, Redis, AWS

- Modernized Pakistan's CKAN-based open-data portal by migrating legacy extensions and developing new platform features, helping **22 organizations** to publish **350+ datasets**

CERTIFICATIONS/TRAININGS

- **Full Stack Web Development with Angular** - Hong Kong University of Science and Technology (Coursera) 
- **Django for Everybody Specialization** - University of Michigan (Coursera) 
- **Fundamentals of Deep Learning** - NVIDIA Deep Learning Institute 
- **Data Analyst in SQL** - DataCamp 

TECHNICAL SKILLS

- **Languages:** C++, Python, TypeScript, JavaScript, HTML, CSS
- **Frameworks:** ExpressJs, NestJs, Django, Angular, CKAN, Flask, Numpy, Pandas, Moviepy, Selenium, Scikit-learn, Pytorch, IoT mqtt, MEAN, Data Structure, Algorithm, SOLID, Ajax,
- **APIs:** Facebook Graph API, Youtube Data API, Google Drive API, SugarCRM API, Gemini, OpenAI
- **Developer Tools:** Git (managed 4 parallel instances), VS Code, Claude Code, Codex, Github Copilot, Cursor, Linux, Ubuntu, Postman, pgAdmin, VMware, heroku cli, MongoDB
- **Platforms:** AWS (EC2, S3, RDS, IOT Core), Heroku
- **Libraries:** Ezsheets, Lodash, moment-timezone, form-render, Alyle, Pillow, jQuery, Bootstrap, Angular Material

ACTIVITIES

- Solved **260+** DSA problems on [Leetcode](#) & GFG
- Devoured "The Pragmatic Programmer" and facilitated **6** book sessions, sparking team-wide adoption of best practices and boosting code quality.
- Presented **3** Leetcode problem solving sessions and attended more than **30** sessions at ICodeGuru
- Published 1 medium [article](#) with strong endorsement on User-Centric software development

LEADERSHIP / EXTRA-CURRICULAR

- **Promotions Director and Trainer, Chiraagh:** Led the team promotions of 7 in devising the strategy for outreach using digital media. Mentored underprivileged students in soft skills development
- **Treasurer, LSCSE:** Managed finances and transactions for a 35-member student society.
- **Co-Founder and Field Officer, SATOON:** Helped establish a computer lab and digital literacy program for 70 orphaned students.
